In the top-right corner of the page, click CA Certificate to download your unique Burp CA certificate. Removing Burp's CA certificate from Firefox To remove Burp's CA certificate from Firefox, go back to the View certificates > Authorities dialog and select PortSwigger CA. Take note of where you save this. In order to intercept the traffic between your browser and destination web server, Burp needs to break this TLS connection. It also encrypts the transmitted data and implements integrity checks to protect against man-in-the-middle attacks. You only need to do it once, and it is required to get the most out of your experience with Burp Suite when using an external browser. To protect against this, Burp generates a unique CA certificate for each installation, and the private key for this certificate is stored on your computer, in a user-specific location. In Firefox, open the burger menu and click Preferences or Options. You can then use Burp to view and edit requests and responses sent over HTTPS, just as you would with any other HTTP messages. To use Burp Proxy most effectively with HTTPS websites, you need to install this certificate as a trusted root in your browser's trust store. If not, please refer to the proxy troubleshooting page. When prompted to edit the trust settings, make sure the checkbox This certificate can identify websites is selected and click OK. From the navigation bar on the left of the screen, open the Privacy and Security settings. PROFESSIONALCOMMUNITY Last updated: March 17, 2022 Read time: 2 Minutes Before attempting to install Burp's CA certificate, make sure that you have successfully confirmed that the proxy listener is active and have configured your browser to work with Burp If you previously installed a different CA certificate generated by Burp, you should remove it before installing a new JÄNROFILLACi jÄC n²Äicacifitrec ed daditrotua aiporp us rop odamif .tsoh adac arap SLT odacifitrec oiporp us areneg PIRB .amelborp etse rative arap² .dadiruges ed aicnetreva anuginn nis anigjÄp al a ragevan redop aÄrebed aroha .odanoicunuf ah odot iS .pruB ed AC ed odacifitrec le ralatsni eeed on euq elbisop se .arodatupnoc us ne selacol sotad sol reel neduup selbaifnoc on sanosrep sal iS .odnazilitu ©Ätse euq rodagevan le n²Äages aÄrav PRUB ed AC odacifitrec le ralatsni arap osecorp iE .rodagevan riRbA ne cilc agah y n²ÄicpcretnI >yxorP a±Äatsep al a ayav .odaroiproci rodagevan la redecca arap² .ÄlanoisseforP etiüs pruB a odinevniB² ecid euq anigjÄp anu a odavell res ebed .riRbA ne cilc agah y etnemairoitna² Ägraced euq AC PRUB odacifitrec le enoicceleS .SPtTH LRU reuqlauc etisiv y rodagevan led n²Äises aveun anu odneirba .rodagevan led sanatnev sal sadot odarnec etnematerroc nanoicunuf sasoc sal euq ramrifnoc edeup .otse ohcch ayah odnauC .osap etse ratelpmoc somadnemocer aÄvadot .SPtTH on LRU noc rajabart aeed olos is etnemalacepse .orotagilbo etnemacitrec se on osap etse eugnaA .n²ÄicpcretnI ed yxorp nu odnazilitu Ätse on odnauc osulcni .aiibo n²Äicceded anu nis SLT senoixenoc sal ed oidem le ne erbmoh le rechad ed secapac res edeup odacifitrec ese arap adavirp evalc al eneit euq etnacata nu secnotne .rodagevan us ne aznaifnoc ed zÄar odacifitrec nu alatsni iS .pruB ed yxorp le noc rajabart arap odarugifnocer jÄtse ay euq .pruB ed odatsurcni rodagevan le rasu etnemelpmis edeup .ereiferp ol iS .ratropmI ne cilc agah y sedaditrotua a±Äatsep al ayav .erba es euq ogoljÄid le nE
